

## **FARA meeting October 6 2022 minutes**

### **Treasurer's report:**

Expense- renewal of telephone, no changes to web.

### **Secretary's report:**

September minutes are posted. Moved and Seconded, Minutes accepted.  
Since it is October, we need to do the annual corporation filing with the state.

### **Repeater report –**

Glenn visited the repeater on 9/21, checked power supply voltages, and learned there is good cellular coverage inside the bunker, which may make future internet control possible.

There didn't seem to be any use of the repeater on Saturday morning. The Cystic Fibrosis Ride had requested ours as a secondary repeater, so apparently, they were able to work just with their primary. Their route was primarily well south of us.

We've started doing research to understand the requirements for future replacement antennas.

**Testing** – still not doing any.

**Upcoming meetings:** November – WinLink (AB1PH, Don Raulph)

Business portion of meeting finished at 7:14pm local time.

Ron WO1E (extra) demonstrated how to use digital modes for contesting  
Suggested software – Dimension 4 (time synchronization) WJSTX (radio receive/transmit/control)

### **List of attendees:**

#### *Zoom Attendees*

Ron Rothman WO1E  
Victor Anderson K1VEA  
David Hoaglin K1HT  
Peter Morrison AC1KY  
John Iwuc KB1VXY  
Richard Whalen KC1NXT  
Bill Nicholson N1WEN  
Stephen Babbitt KC1LPZ

#### *In Person Attendees*

Andy Boughton KC1DMM  
Bruce Rusch W1HNZ  
Steve Moro N1MH  
Sumner Weisman W1VIV

Guests: (none)
